

Books written by past postdocs, Department of Materials Science and Metallurgy - 11 May 2021

Author(s)	Title of book	Year published	Publisher	Research Group
Athene M. Donald and A.H. Windle	Liquid crystalline polymers	1992	Cambridge University Press	AMD: Professor Alan Windle
P.J. Goodhew, F.J. Humphreys and Richard Beanland	Electron microscopy and analysis (3rd ed.)	2000	Institute of Physics	RB: Professor Paul Midgley
Athene Donald , Alan Windle and Simon Hanna	Liquid crystalline polymers (2nd ed.)	2006	Cambridge University Press	AMD: Professor Alan Windle
Wei Sha and Zhanli Guo	Maraging steels: modelling of microstructure, properties and applications	2009	Woodhead Publishing	WS: Professor Sir Harry Bhadeshia
W. Sha and S. Malinov	Titanium alloys	2009	Woodhead Publishing	WS: Professor Sir Harry Bhadeshia
W. Sha , Xiaomin Wu and K.G. Keong	Electroless Copper and Nickel-Phosphorus Plating	2011	Woodhead Publishing	WS: Professor Sir Harry Bhadeshia
Terence E. Warner	Synthesis, properties, and mineralogy of important inorganic materials	2011	Wiley	Professor Derek Fray
Wei Sha	Steels: from materials science to structural engineering	2013	Springer-Verlag	Professor Sir Harry Bhadeshia
Peter Dearnley	Introduction to surface engineering	2017	Cambridge University Press	Professor Bill Clyne
