

CaMPUS Placements: UK Industrial - Reports 2013

Below are reports on the Summer Placements provided by students who participated in the scheme in 2013.

Granta Design, Cambridge	2
<i>Report 1</i>	2
Welding Alloys Ltd., Fowlmere, near Royston, Herts.	2
<i>Report 1</i>	2

Granta Design, Cambridge

Report 1

1. General

Placement Location: **Granta Design**

Arrival and Departure Dates: **1/7/13- 13/9/13**

No. of working days spent at Institution: **55**

2. Financial

Where did you stay during your placement (town name)?: **Cambridge (College accommodation)**

Total cost of daily travel to and from Institution (£): **0**

Total received from Institution (£): **£3215.76**

3. Research Project

Title of Research Project: **Folder Level Records III**

Written Report submitted to host institution?: **yes**

Experimental Techniques used: **no**

Interest level of project: on a scale of 1 (low) to 10(high): **7**

Quality of support provided: on a scale of 1 (low) to 10 (high): **10**

Interaction with other researchers: on a scale of 1 (low) to 10 (high): **9**

Short summary (~ 200 words) of technical content of project:

'Folder level records' provide more descriptive information to the numerical data in Level 3, the level of Cambridge Engineering Selector used by engineers and product designers. I was the third intern to work on these, therefore my first task was to review those written in the previous two years for inclusion in the latest release. From this work I produced documents such as a style guide for use in further writing and checking of folder level records. I then went on to write my own folder level records, which were then reviewed and included in the latest release. I also produced many documents about the process.

Welding Alloys Ltd., Fowlmere, near Royston, Herts.

Report 1

None submitted.
